**DO  
NOT  
BLOCK**

When parking in the street, please be respectful of your family and neighbors. Consider that at anytime an emergency may occur. Do not park on both sides of the street which may block emergency vehicles. Leave room for them to pass on their way to help and protect our loved ones.

## **Congratulations to David Walker!**

David Walker at 1117 Huntington Lane was awarded a Safety Harbor Garden Club Award this year. Every three months, the Safety Harbor Garden Club, gives an award to a local resident who has maintained a beautiful yard without the help of landscapers. When you are strolling through the neighborhood, enjoy the view and all his hard work!

## **Did you know we pay for the electricity running the community street lamps?**

Around \$1,000 per month! It is our largest recurring monthly expense. It is very important to report lights that are continually on during the day or that are out at night to Progress Energy. The lights can be reported by calling 800-228-8485 and pressing 3 from the voice menu or visiting the website [progress-energy.com/streetlightrepair](http://progress-energy.com/streetlightrepair) and filling out the outage form. Each light pole has a unique several-digit number that identifies its location, however, the number is not necessary to report the problem.

## **Save The Bushes**

We will soon be replacing the dead and dying bushes around the Huntington Trails' perimeter wall. Please do not discharge chlorinated pool water thru the wall holes onto the bushes. It is killing them. Thank you, in advance, for your cooperation.
