## Flooding 7-27-24 and 8-4-24

- We are aware of the flooding issues and are working with the other Huntingtons and the City of Safety Harbor to mitigate issues in the future.
- The City of Safety Harbor is holding a community meeting in order to discuss the Huntington Drainage Issues that have caused roadway flooding on Green Springs Dr. since mid-July. The meeting will be held in the City Commission Chambers on August 28, 2024, at 6:30PM.

## Ponds

Chris – from American Ecosystems - was on premise for our monthly treatment 8-26-24.

- Pond 1 (Huntington and Green Springs) looks very good.
- Pond 2 (behind homes on Huntington, Wellington, Chillum and Kingscote) looks very good.
- Pond 3 (behind homes on Wyndham and Chatham) looks good and is still responding to the treatment performed in late April to mitigate the algae issues we have had for the last several years. Grass clippings are visible in pond 3 and they are treating for it.

**The algae that grow due to grass clippings can get out of hand very quickly.  
Please do NOT allow grass clippings in the ponds as this completely negates our efforts.  
Please review the links below for important information regarding  
landscaping and its effect on our pond system.**
